PRINTING TECHNOLOGY

- **DTG (Direct-to-garment):** Ink prints directly onto the garment on our Kornit line. Photo-quality detail, soft hand-feel, zero minimums. One shirt or a thousand, same result.
- **DTF (Direct-to-film):** Design prints to film, then presses onto any fabric through our 8-head setup. Built for volume. Consistent color, fast turnaround, no fabric restrictions.

DRINKWARE

CERAMIC MUG

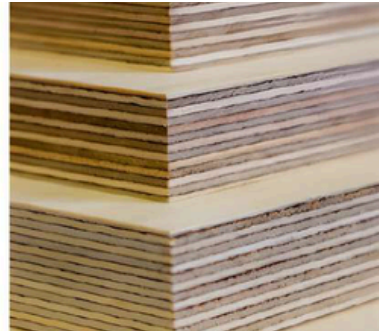

A full-service manufacturer of custom home décor and lifestyle accessories, built for retailers, gift brands, and personalization businesses worldwide. From raw sheet to finished product, every piece is cut, printed, and finished in-house.

Five Core Materials

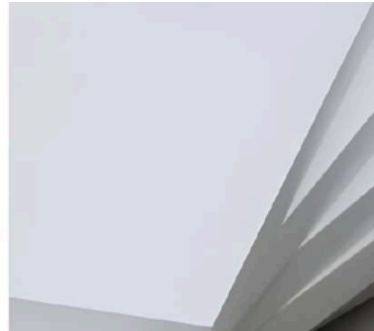

Acrylic

Vivid color, transparent or frosted, weather-resistant.

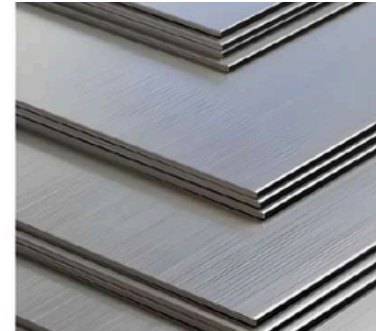

Wood

Warm natural grain, laser-cut detail, eco-friendly.

Ceramic

Glossy, food-safe finish for drinkware and display.

Metal

Durable brushed finish for outdoor, heavy-use pieces.

Glass

Optical clarity for light-catching decorative pieces.

Outdoor & Gardening

Ceramic Accent Mug

CORE TECHNOLOGIES

UV Printing

Full-color, direct-to-substrate printing with fine detail and durability across acrylic, wood, and metal.

Heat Transfer

Uses heat and pressure to permanently apply printed designs onto items like mugs and apparel.

Laser Cut

Employs a precise, high-powered laser beam to cleanly slice, etch, or engrave detailed patterns into various materials.

Ornament
